EDISON LABORATORY
WEST ORANGE, N. J.

*Mr. Chas. L. Clarke,
109 Glenwood Blvd.
Schuylkill, Pa.*

W. H. Aug. 28th 1924

My dear Mr. Clarke:-

Yesterday I sent you by registered post the six photographs you so kindly lent me for reproduction. I do hope they reach you safely and in as good condition as when they first left your hands. We now have a good negative of each one so reprints could be made at any time. Copies of these pictures shall be sent to each of Edison's children and I know they'll be glad to get them.

Was out to Friends last Thursday in the storm, and brought in one of the original front doors of the old laboratory and a lot of stuff I found in the attic of Isaac Force's house, including a plaster bust of Edison (1878) which I am keeping for myself.

My sincere appreciation of your goodness and many kind wishes to you and yours.

*Sincerely,
F. A. Wardlaw*
